

## Arms Being Shipped From California For Britain Says Paper

SAN FRANCISCO, July 10.—A published story that army firearms and munitions were being furnished Great Britain from this area drew a denial last night from one army officer, and no comment from war department spokesmen.

## TAX EXEMPTION IS MOOTED FOR GUEST CHILDREN

Consideration will be given next week by the provincial government to the announcement by the Dominion that provision will be made for income tax exemption to families accepting guest children from Great Britain, it was reported Wednesday. The province will consider whether this same exemption should be applied to provincial income tax.

Min. Selwyn E. Lewis, provincial treasurer, is out of the city on holiday and is expected to return next Monday, when the matter is likely to be discussed in cabinet. From British Columbia came information that Premier Bennett was considering allowing exemption from provincial income tax there in respect to families taking British children into their homes.

Under the Alberta income tax act, exemption is granted up to \$1,500 a year, with \$100 for each dependent.

Amendments to the Dominion Act, provided at the current parliamentary session give similar exemptions in respect to Dominion income tax.

Both governments exempt \$750 from income tax for single persons.

## Italian Bomber Is Downed In Flames In Raid On Malta

CAIRO, Egypt, July 10.—Royal Air Force headquarters issued this communique today: "Yesterday morning an enemy tri-engine bomber, supported and guarded by two formations of fighters, attempted an air raid on Malta. It was intercepted by one of our fighters, which immediately opened action and set the starboard engine of the Italian bomber afire. The bomber crashed into the sea in flames. Nothing to report on other fronts."

## ITALIAN FLEET IS ROUTED BY ROYAL NAVY

Continued from Page One

Information the enemy was being pursued, severely commented an Admiralty communique issued early today.

It was problematical whether the British fleet would catch the Italian one, the communique indicated, but it was asserted that navy ships went out to bomb the Italian ships as they fled.

**FOUR PLANES DESTROYED**

As the Alexandria contingent met the Italian, the Gibraltar fleet was vainly seeking the Italian warships. Effecting what the Admiralty called a sweep toward the central Mediterranean, the West met and the Admiralty said, destroyed four Italian airplanes and damaged seven others.

Three of them so severely that it was unlikely they reached port. British spokesmen had challenged the Italian fleet repeatedly in combat and made good its boast of making the Mediterranean an "Italian Lake." Prime Minister Winston Churchill, in his dramatic speech describing the battle of Oran, had commented derisively that the Italian fleet had "prudently" stayed away.

There had been one brief engagement between British and Italian fleets June 27. Then British light forces, the Italian destroyer Espero at the extreme range of 18,000 yards—more than 10 miles—failing light. The leading British ship had been firing on a number of Italian destroyers for 20 minutes when there was a terrific explosion aboard the Espero.

Officially, headquarters of which are here, likewise denied knowledge of the ships.

In all 42 cartloads of vital war materials, including light firearms and ammunition from the Benito, Calif., arsenal have been shipped, the article said, adding:

"High explosives, including big shells, have been shipped from the military dump at Hawthorne, near Winchester, Nev."

"The first shipment was about 20 days ago, and shipments continued for 10 days. Some of the latter are still enroute."

These war munitions have been shipped by American rail to a point about 15 miles below Winnipeg, from which point they are being trans-shipped across the border."

## I Dead, Another Hurt In Level Crossing Smash

NANTON, Alta., July 10.—One person was killed and another critically injured in a railway crossing collision between a train and a truck south of Nanton this morning.

The dead man is Arthur Wannop of Nanton, while his wife, Leslie, is being gravely injured in High River.

## U.S. CONGRESS ASKED VOTE FIVE BILLIONS

Continued from Page One

contract authorization. The latter would permit Congress to appropriate later a like amount.

**PRINCIPAL LESSON**

"The principal lesson of the war up to the present time is that partial defense is inadequate defense," Mr. Roosevelt declared.

"No great a sum means sacrifice. So large a program means hard work—the participation of the whole country in the total defense of the country. This nation through sacrifice and work and unity proposes to remain free."

The President outlined the government's "immediate objectives" as follows:

"1.—To carry forward the naval expansion program designed to build up the navy to meet any possible combination of hostile naval forces."

"2.—To complete the total equipment for a land force of approximately 1,200,000 men, though of course this total of men would not be in the army in time of peace."

"3.—To procure reserve stocks of tanks, guns, artillery, ammunition, and other major items of equipment for a total of 2,000,000 men of a mobilization of such a force should become necessary."

"4.—To provide for manufacturing facilities public and private necessary to produce critical items of equipment required for a land force of 2,000,000 men, and to produce the ordnance items required for the aircraft program of the army and navy—guns, bombs, armor, bomb sights and ammunition."

"5.—Procurement of 15,000 additional planes for the army and 4,000 for the navy, complete with necessary spare engines, armaments, and the most modern equipment."

Mentioning that Congress was considering a plan of a system of "selective training" to develop the necessary man power to operate this material and man power to fill army non-combat needs, Mr. Roosevelt commented, "but without specifying what plan he favored."

**TRAINED MANPOWER**

"In this way we can make certain that when this modern material becomes available, it will be placed in the hands of troops trained, seasoned, and ready, and that replacement material can be guaranteed."

At one point Mr. Roosevelt declared, "We fully understand the

threat of the new enslavement in which men may not speak, may not listen, may not think. As these threats become more numerous and their dire meaning more clear, it deepens the determination of the American people to meet them with wholly adequate defense.

"We have seen nation after nation, some of them weakened by treachery from within, succumb to the force of the aggressor. We are great nations. We are fighting against aggression, encouraged by high hope of ultimate victory."

"That we are opposed to war is known not only to every American, but to every government in the world. We will not use our arms in a war of aggression; we will not send our men to take part in European wars."

**THREATS INCREASED**

"But we will repel aggression against the United States or the western hemisphere. The people and their representatives in the Congress know that the threats to our liberties, the threats to our security, the threats against our way of life, the threats to our institutions of religion, of democracy, and of international good faith, have increased in number and gravity from month to month, from week to week, and almost from day to day."

**Dry Spell Ends**

VANCOUVER, July 10.—Rain fell over the Vancouver area today ending an all-time record of 35 consecutive days which left gardens parched and created a serious fire hazard in the forests.

Six meals a day are customary in Norway.

## DEPUTIES HEAR WARM DEFENCE ABSENT LEADER

Continued from Page One.

stills, refused a landing at Casablanca, still was at sea.

The assembly met this afternoon to vote on a proposal to give Marshal Pétain, as chief of state, full power to promulgate a new constitution guaranteeing "the rights of work, the family and the fatherland."

The constitution "will be ratified by the assembly which it will create," according to the bill for assembly passage.

The assemblies referred to apparently are corporate bodies to be set up on the Italian Fascist model to advise the government and exercise some of the powers of a legislature.

The national defense and foreign affairs committee of the senate voted unanimously to ask the government to investigate "the responsibilities for origins and conduct of the war."

**Tweedsmuir Estate**

LONDON, July 10.—The late Lord Tweedsmuir, who died in office early this year while governor general of Canada, left a personal estate valued at \$28,683 (\$129,000), it was revealed today.

## CHANGES ARE ANNOUNCED IN INCOME TAXES

**Soldiers and Others To Benefit By Changes Passed In House**

OTTAWA, July 10.—Non-commissioned officers and men of all Canadian forces, and those who give shelter in their homes to dependent children brought from the United Kingdom under government-sponsored schemes benefit by amendments to the income tax resolutions adopted in the House of Commons yesterday.

Hon. J. L. Murray, minister of finance, moved adoption of both amendments. They met in some degree protests that followed presentation of the budget June 24, but Conservative members declared they did not go far enough.

While all warrant officers, non-commissioned officers and men of the forces are to be exempt from income tax under Tuesday's amendment, their final status under the national defence tax remains to be decided when that clause is reached.

Commissioned officers remain taxable under the Income Tax Act under the amended regulations. Commissioned officers, non-commissioned officers and men serving outside Canada, and those serving within Canada in the navy and air force are exempt from the national defence tax. It is indicated by the minister exemption from the defence tax is being considered for non-commissioned officers and men serving in Canada in other than the air force and navy.

## JUSTICE HOWSON STALLION WINNER IN BELGIAN CLASS

CALGARY, July 10.—Some of the finest horses ever assembled under one roof were paraded before the judges Tuesday in the livestock competition at the Calgary exhibition and stampee.

Acme Elton Ivanhoe, owned by Charles A. Hughes and Sons, of De Winton, placed first in the class for Percheron stallions two years old, and took the grand championship for this breed. Midwood Dragon, owned by Jonathan Fox, Jr., of Lloydminster, was reserve champion.

Grand champion and reserve champion Clydesdale stallions were shown by R. A. Allan of Dalry, Alta. Hiawatha Refiner was the winner and George Maxwell the reserve.

## Castonguay Named Supervisor Canada Registration Plan

By R. K. CARNEGIE  
Canadian Press Staff Writer

OTTAWA, July 10.—Julius Castonguay, chief electoral officer for Canada, yesterday was appointed by order-in-council as chief registrar for Canada to supervise the national registration. His assistant will be Harry Butcher, who was his assistant during the recent general election.

## ARMED FORCES MUST BE READY FOR ANYTHING

OTTAWA, July 10.—"Our job is to be prepared for whatever may come," Defence Minister J. L. Ralston told the fighting forces of Canada in a special message last night.

The minister said world conditions made it impossible to tell what lay ahead.

Speaking for himself, Navy Minister Designate A. L. Macdonald, and Air Minister Power, Col. Ralston pointed out that physical fitness, discipline and training form the foundation of preparation for the fighting services.

The task of providing equipment, he said, was not lagging for a moment.

"We ask everybody to make the very best use of the things we have and to use their brains and ingenuity to keep going full speed. The enemy works Sundays and holidays as well as week days and nights as well as days. And so shall we because victory depends directly upon the untiring energy and effort of us all."

**Stimson Confirmed For War Secretary**

WASHINGTON, July 10.—The United States Senate confirmed yesterday President Roosevelt's nomination of Henry L. Stimson, Republican, to be secretary of war. The vote was 56 to 32.

**Miners At Work**

GLACE BAY, N.S., July 10.—All pits of the Dominion Coal Company in the area worked as scheduled yesterday, the controversy over employment of aliens apparently settled.

## Somerset Maugham Spent Three Weeks Huddled In Vessel

LONDON, July 10.—W. Somerset Maugham, the novelist, disclosed last night he had spent three weeks huddled with 3000 refugees in a small boat before being able to cross from France to England.

He escaped from Paris shortly before the German occupation.

"We had practically nothing to eat," he said. "Sleep was out of the question. I am too tired and exhausted to tell you much."

## Editor Dies

CLEVELAND, July 10.—Henry J. Widenthal, 70, associate editor of the Cleveland News and a newspaper man here nearly 50 years, died Monday night with a heart ailment.

## Labor Convention

TORONTO, July 10.—Officials of the All Canadian Congress of Labor, announced yesterday, 10th annual convention will be held in Toronto Sept. 9.

## U.S. Government Considers Alien Internment Here

WASHINGTON, July 10.—State Secretary Cordell Hull said yesterday the United States government is giving attention to the question of German and Italian prisoners and aliens being brought to Canada from Great Britain, but did not indicate whether any diplomatic action had been taken.

He made this comment in reply to a question at his press conference soon after he had seen the Canadian charge d'affaires, M. M. Mahoney. However, Hull said this still involved only a routine matter.

In some Washington quarters concern has been expressed regarding the internment of German and Italian prisoners so near the United States.

## Red Cross Gift

ESTON, Sask., July 10.—The people of Eston and district yesterday donated \$1,000 to the Canadian Red Cross. The money was raised by a sports day and dance.

## FOREST CORPS 20 COMPANIES AUTHORIZED

OTTAWA, July 10.—Mobilization of a Canadian Forestry Corps for service overseas was announced Tuesday by Defence Minister Ral. B. King.

Canadian Forestry Corps in France in the last war, and was deputy director of timber operations with the British army, will command the corps.

Twenty companies will be raised in various parts of Canada, six of these to be recruited immediately with headquarters at Kingston, Montreal, Quebec, Saint John, Winnipeg and Victoria. The others will follow as speedily as possible.

The companies will receive intensive training before leaving Canada, and men who are skilled in forestry and lumbering and allied trades will be given preference.

## Bahamians To Get Expenses Paid To Enlist In Canada

NASSAU, The Bahamas, July 10.—A committee appointed by Governor Dundas has announced the opening of a drive to collect £25,000 to purchase ambulances and a plane for the British government. The committee also announced it will pay expenses of any Bahamian wishing to enlist in the Canadian forces.

## Royal Navy Scores Double Triumph By Two Actions Against French Fleet

NEW YORK, July 10.—The New York Times, in an editorial on the action which Britain was forced to take against the French fleet, said today:

"The British navy has won a double triumph by compelling the peaceful surrender of the French fleet at Alexandria and by crippling the great battleship Richelieu off West Africa. If Germany or Italy had obtained the use of the fast and powerful French battleships, the whole balance of sea power might have been changed at once."

"The potential danger to British sea power remains, and will remain until the forthcoming attack on the British Isles has been repulsed. But at least for the present the British are now free to use the Nelson touch against the Italian navy, which, according to Signor Geyda, has been assigned the duty of harassing British shipping and immobilizing a large part of British naval strength."

"There seems to be enough British naval power in the Medi-

terranean to keep the Italian fleet in hiding somewhere in Mare nostrum, or to make it fight, which it did not do at Oran."

"The admiralty announced last night that contact had been made with part of the Italian fleet. In any case, the British now have nothing to fear from the French except the presence of the damaged Surostrom and the smaller ships at Toulon, and the possible use of French bases like Bizerte by the enemy. The aircraft carrier Bearn still defies capture at Martinique, but her commander now has a precedent in the common sense shown by the French at Alexandria, for yielding without a fight, and for sparing France another needless tragedy."

## Veteran Actor Dies On Eve Of Greatest Picture

HOLLYWOOD, July 10.—Grand Old Man of the screen, actor who in two days was to begin the biggest part of his 40-year career, died yesterday.

Critics several weeks ago judged Bates' part of the judge in "My Favorite Wife," with Gary Cooper and Irene Dunne, one of the best bit comedy performances in months. On the strength of it, he was to start this week in the role as the mayor in Frank Capra's "Meet John Doe."

## PLAN TO SEND OUT CHILDREN RE - EXAMINED

London Papers Declare  
British Government May  
Abandon Plan

By HAROLD FAIR  
Canadian Press Staff Writer  
LONDON, July 10.—The govern-  
ment is re-examining the plan for  
overseas evacuation of children,  
according to the political correspon-  
dents of the Daily Mail and  
Daily Herald, but no official com-  
ment is available on these reports.

The Mail went so far last night as  
to say the government "may aban-  
don their plans to evacuate children  
to Canada and the other Dominions  
as well as the United States."

## CHANGE EXPECTED

The Herald's Maurice Webb said a  
forthcoming announcement "is like-  
ly to reveal an important change in  
the government's overseas evacua-  
tion policy."

William Broadbent in the Mail  
wrote that some of the government's  
advisers oppose evacuation, report-  
ing it would be very difficult to provide  
adequate conveyance, but that other  
ministers just as strongly favor  
carrying out the original arrange-  
ment.

Departure of the first large  
batch of evacuees has been  
scheduled to take place shortly.  
Officials said 75 per cent of them  
are children of working-class par-  
ents.

The plan to evacuate 20,000 chil-  
dren was criticized in a recent Daily  
Mail editorial. It argued that while  
the government was arranging to  
evacuate that number, rich parents  
were able to evacuate their children  
independently, with the result that  
poor parents feel a grievance.

9,000,000 CHILDREN

The Mail said in view of such  
complaints, a demand has been  
made to abandon evacuation by sea.  
It cited the argument that there are  
9,000,000 children in Britain and the  
government cannot afford shipping  
to move all, therefore since all can-  
not go they should all stay. The  
paper said the other side of the  
argument was that every shipload  
of children taken from the country  
saves shipping space and foreign ex-  
change needed to bring them food.

Two out of every five persons  
killed in traffic accidents are pe-  
destrians.

## R. S. SHEPPARD NEW HEAD OF CITY SCHOOLS

Assistant Superintendent is  
Promoted To Succeed G.  
A. McKee, O.B.E.

Ross S. Sheppard, M.A., Educ., principal of Strathcona High school for 18 years and an Edmonton teacher since 1915, on Tuesday night was appointed superintendent of schools at a meeting of the Edmonton Public School Board.

He succeeds G. A. McKee, O.B.E., who is retiring after 17 years as chief executive of the city's elementary and secondary school system. Mr. Sheppard has been assistant superintendent since July, 1938.

The appointment of Mr. Sheppard was unanimously called by the board on a motion by Trustee S. Bruce Smith, K.C. He will assume his new post September 1, when Mr. McKee's retirement becomes effective.

The new superintendent thanked the board for the confidence placed in him and expressed his hope that he would justify the action of the trustees in his appointment.

An outstanding educationist and scholar in the field of mathematical research, as well as one of Canada's leading athletes, Mr. Sheppard brings exceptional attainments to his new position.

Mr. Sheppard was born in November, 1899, and was raised on a farm at Belleville, Ontario, a village 30 miles north of Toronto, where he received his elementary education. He attended Newmarket High School and Orillia Collegiate Institute.

In 1907 he enrolled at Toronto University in the honor course in mathematics and physics and graduated as a gold medalist in 1911. He won a scholarship for research work at the University of California, in which he spent the following year.

**MASTERS' DEGREES**  
Following this he attended Calgary Normal school and took several courses in education, philosophy and psychology at the University of Alberta, obtaining his Master of Arts and Master of Education degrees.

He taught in public schools at Ferry Point and Wanda and in January, 1913, was appointed mathematics master at Strathcona High school. In 1920 he was appointed principal of Strathcona High and held that position until 1938 when he was made assistant superintendent of schools.

Always an active participant in athletics, Mr. Sheppard was a member of the track and field team, played soccer and was a member of the athletic executive at Toronto University.

Since coming to Edmonton he has participated for many years in track and field events and still holds the Dominion record of 2 ft. 1 1/2 inches in the standing high jump. He also holds the Alberta record for the standing high, standing broad jump and running hop, step and jump.

**REPRESENTED CANADA**

In 1924 Mr. Sheppard represented Canada in the hop, step and jump at the Olympic Games in Paris. He has played tennis and badminton in Edmonton and now plays golf.

His published works include several articles in the field of mathematics and, in collaboration with Dr. McDougall of Ottawa, he has written a text in geometry which is still in use in the high schools of Alberta and Saskatchewan, authorized by the departments of education of both provinces.

Active in church circles, Mr. Sheppard is a member of Metropolitan United Church and in 1934 was president of the U. C. Lay Association of the United Church.

Mr. Sheppard is married and has two daughters, Doris, a graduate of the University of Alberta who is teaching at Camrose High School and Ruth, who is in Grade 12 at South Side High School.

Dr. J. E. Robinson, Social Credit member of the legislature for Medicine Hat, and Roy Lee, S.C. Taber, were visitors at the legislative buildings Wednesday.

## The Inquiring Reporter

### THE QUESTION

Having had the job of paying household light and water bills recently, the Inquiring Reporter was, like city council, struck with the idea of seeing tickets opened for the sale of war stamps and certificates at the Civic block and telephone building. In this way citizens paying their bills could "take their change" in stamps. Here's what a few other people thought of the idea.

### THE ANSWERS

**TOMMY ROBERTSON, clerk:** Good idea. Nearly everyone has to visit the Civic block at least once a month anyway, so it would certainly be convenient.

**R. G. MOSHER, postal service:** I think it is a splendid idea, one that will boost the sale of war savings certificates considerably. The public wants convenience these days, and while such a scheme would mean a little more work for clerks, everyone is going to have to work hard to win this war.

**MR. CAMERON** (while moving into his new home on 124 street) This and every other scheme to further the sale of war stamps should have the full support of every Canadian.

**A. WARING, clerk:** It's a sound idea, because people paying bills generally have a few cents over that should be used in Canada's war effort.

In 1939 there were 2,000 beekeepers in Alberta manufacturing products valued at about \$170,000, according to Hon. D. B. Mulien, minister of agriculture. In 1927 there were 200 beekeepers who produced honey valued at \$60,000. Alberta now stands fourth or fifth in Canadian provinces as a producer of excellent honey.

## MOVING FILMS OF CITY SHOWN AT WORLD FAIR

A 20-minute moving picture reel of Edmonton, made by the Junior Chamber of Commerce, is being shown at the New York World's Fair. It was learned by officers of the Junior chamber here.

The film, which shows all Edmonton's beauty spots, its airport and other points of interest, is to be shown in the Canada Pavilion at the fair two or three times a week for the rest of the season.

## Polish Vets To Tag On July 13

Polish Army Veterans of Edmonton will hold a tag day on Saturday, July 13, proceeds of which will go to the Polish National Relief and Defence Fund in Canada.

The committee in charge is as follows:  
Mrs. H. Black, president of the Provincial Imperial Order Daughters of the Empire; Mrs. H. Kivner, vice-president; Mrs. Kaminski, member of Polish National Relief; J. May, president of Polish Army Veterans' Association; and R. Hauptman, secretary.

Canadian river drivers say that the tiny punkie fly actually can travel through heavy wooden blankets.

## Bulletin Building In 1880

Erected in 1880 on the site of the present plant of The Edmonton Bulletin, this log house was the first Bulletin office. Now a historic memento of early Edmonton days, it stands in the Edmonton Exhibition grounds, adjacent to the cabin headquarters of the Edmonton and Northern Alberta Pioneers and Old Timers' Association. In the foreground can be seen the bust of the late Hon. Frank Oliver, founder and pioneer publisher of The Bulletin, which was erected by the Old Timers as a token of their appreciation of his unflinching efforts for the advancement of Edmonton and the west generally.

## AROUND THE TOWN

**His Honor Judge Robertson,** Prince George, B.C., is a visitor in Edmonton and is registered at the Macdonald hotel.

**Mayor John W. Fry** emphasized Wednesday that the city has not contracted for additional turbines and boilers for the city power plant. The city has asked for tenders and additional equipment in order that they could learn the exact cost of making additions to the plant. He stated that some tenders had been received, but that no contracts had been let.

Three building permits totalling \$2,350 were issued by the city Wednesday. A permit for a \$1,000 frame dwelling at 10317 60th avenue was issued to George E. Wilton. A permit for alterations, a new roof and new foundation for a building owned by McDougall and Secord at 10003 116 street was taken out, work to cost \$1,500. Another authorized the new \$850 motor truck scale being installed at the southeast corner of the Market Square.

Set up under the Trade Schools Regulation act, the provincial advisory board will meet at Calgary next Monday. Discussions will take place on several questions which have been brought under the act. Representatives of business colleges are expected to attend. W. D. King, deputy minister of trade and commerce, is chairman of the board, while other members are Dr. W. G. Carpenter, J. H. Ross and R. J. Grant, solicitor for the trade and industry department.

Night-seeing in western Canada on a three-week holiday tour a party of seven from the province of Quebec were guests at the Macdonald hotel Tuesday. Organized by F. D. Barril, director of Tote Tote, the party included Rev. Fainer Desrosiers, of St. Raphael de Belchere, Que.; M. Corneille, Quebec; and, accompanied by Madame Corneille, Madame A. Breton of St. Jean, Ste. Marie, Ont., and Miss Evelyn Faubert, Quebec City. The party motored through Edmonton Tuesday morning, and in the afternoon visited Elk Island Park. They left for Jasper Park Wednesday morning en route to the Pacific coast, and will return to Eastern Canada via Banff and Calgary.

## CADET PLAN RE-INSTATED FOR SCHOOLS

Board Seeks Approval and  
Financial Aid From Mi-  
litia Department

Cadet training will be reinstated in Edmonton schools, providing approval and financial support is forthcoming by the department of militia, it was decided at a meeting of the Edmonton public school board Tuesday night.

Original motion of Trustee Melvin Downey, which did not provide for a guarantee of financial support from the federal government, was amended and passed only after a long discussion of the matter in which several suggestions were advanced and abandoned by members of the board.

### OPTIONAL TRAINING

The motion was amended by Trustee W. G. McCoskie and finally adopted, following that subject to approval and financing by the department of militia, cadet training be reinstated in the high and intermediate schools at optional part of the course in physical education and that the superintendent of schools be asked to work out details, and if necessary, a special committee be appointed to co-operate with the superintendent.

Trustee S. Bowcott wanted the question tabled while the department of militia defense is asked to approve or reject cadet training on a national basis. Mr. Bowcott said he was one of those who had advocated the abolition of cadet training here many years ago. He was not against the principle of re-introducing training at the present time but felt that it should be on a much broader basis. He thought that the board should seek a declaration of policy on cadet training from the federal government.

In defending his original motion Trustee Downey said he had not favored the training from the standpoint of indicating a military spirit in the schools, but felt it was

## I Saw Today

AND

Johnny Stoll heading for the entrance of the city from the west end. Gilbert Dodge, driving home; Neil Waring turning east on 100th avenue from 105 street; Jack Penner crossing McDougall at the intersection of Jasper; George Ibbotson entering the legislative building; and Ken Hawkins arriving from the South Side to the North. Jimmy Harte in the central section of the city in a discussion on tennis.

valuable from a discipline-building standpoint and also because many boys unable to compete in sports because of physical reasons, were included in cadet training.

### NO COMPELSION

There also was no suggestion of compulsion in his mind, Mr. Downey emphasized. Rifles and other equipment required were being supplied by Military District 13 for the Cadet Corps, where the training has recently been re-instituted, and rifle instructors were also supplied by the military, the trustee stated.

Arm bands could be used instead of uniforms for drills, with little or no expense involved, he suggested. That the board be willing to spend at least \$100,000 was recommended by Mr. Downey. Where the parents object no compulsion would be attempted.

# WATERS ENTERS SEMI-FINALS OF MEN'S SINGLES

## Trevor Davies Stops John Stott In Upset

By JOHN OLIVER

ROGER WATERS, former city tennis singles champion and seeking to regain lost laurels, entered a semi-final bracket in the annual Edmonton and district championships, now in progress at the Glenora Tennis Club, by defeating Leo Lemieux Tuesday evening, by the score of 6-2, 6-1. The two had met in the "eights" last year, with the same result.

Waters, champion two years ago, yielded his title last year, when he was defeated in a semi-final match by Andrew "Shorts" Purcell. Waters covered court relentlessly and never gave away a thing. He had too much zip in his service, his ground strokes and his net play.

Waters, 32, is a former champion of the city and district championships, but they were not held last year. He is now a resident of the city and is a member of the Glenora Tennis Club.

### HALL ADVANCES

## Nationals Shut Out American Leaguers 4-0

By JUDSON BAILEY

Associated Press Sports Writer

ST. LOUIS, July 10.—The National League humiliated the American League with the first shutout in the eight-year history of the all-star game yesterday, 4-0, on magnificent three-hit pitching and a first-inning home run by Max West of Boston.

A sweltering crowd of 32,323, slightly less than capacity of the park, thrilled as five National League hurlers stifled the ballyhooed batting of the Americans.

The National League's first shutout since 1932, when the St. Louis Cardinals defeated the New York Yankees, 4-0, was a record for the league.

Perfect Fielding  
The National League's perfect fielding was a record for the league. The American League's perfect fielding was a record for the league.

WEST HURT  
Max West of Boston was hurt in the first inning. He was hit by a pitch and was unable to play.

ONLY ERROR  
The only error of the game was committed by the American League's first baseman, who dropped a ball in the first inning.

When LIFE Depends on TEETH!

**FOR YOUR PROTECTION**  
Insist on  
**TEETH IN TIRES**

Double your pleasure and ease in motoring. Ride on tires that have safety built into every strand and fibre... tires that will win and hold your confidence with the vital, trustworthy protection they provide.

That safety... that confidence... are yours when you buy Dunlop Fort. For the safety of your life is the only one in the world with 3000 Full Depth Teeth... over 5000 sharp, cutting edges to grip the road and give you safety, traction and multiplied safety on all roads, in all weathers.

Teeth In Tires is patented by Dunlop and, with the famous Gully Channel Construction, makes Dunlop Fort the leader in a wide range of Dunlop Quality Tires, for every purse and purpose.
